Welcome to my profile. I am currently pursuing a Bachelor's degree in Cyberspace Security at Jilin University(JLU) and shall soon commence my Master's studies at the School of Computer Science and Technology, University of Science and Technology of China(USTC).

My research within the USTC Intelligent Network and System Group (INT) will focus on distributed computing, including AI × Communications. I warmly invite you to engage in discussions on related fields.

Projects

Hexo Blog   September 2024 - now

I have divided my personal blog into three sections: the main site and core content, personal information and learning experiences, and fictional world-building.

GPA:3.91/4.0，Rank:3/102.

Competition & Job Experience

National Gold Award,The 2024 ICPC China Kunming National Invitational Programming Contest   May 2024 - now

I hereby declare that the above information shall not be used without authorisation until I update this statement.

- This competition can be said to be the starting point of my programming competitions.
- It gives me a lot of confidence and advantages in the fultrue.
- Not only did I further cultivate my innovative abilities, team spirit and collaboration skills, but I also developed the capacity to write programmes, analyse and solve problems under pressure.

Tags: C++, Code, Think, Create, Team

National Second Prize,The 16th Lan Qiao Cup C/C++ Programming Competition, University Group A

June 2025 - now

-The Blue Bridge Cup competition places greater emphasis on assessing fundamental coding skills, whilst its individual format allows for a more comprehensive demonstration of personal capabilities.
-Moreover, the post-event standardised assessment approach it employs places heightened demands on the one-off accuracy and rigour of the code.
