Welcome to my personal page. I am currently pursuing a research-based master's degree in Computer Science and Technology at the University of Science and Technology of China (USTC), and I completed my undergraduate studies in Cyberspace Security at Jilin University.

My research at the INT Lab (Intelligent Networks and Systems) at USTC will focus on distributed computing, though the specific direction hasn't been decided yet. I sincerely invite you to exchange ideas and discuss topics related to this field.

Education

University of Science and Technology of China

September 2026 - June 2029

Computer Science and Technology

Pursuing a Master's degree.

Jilin University

September 2022 - June 2026

Cyberspace Security

Rank:3/102,Outstanding Graduates.

Competition & Job Experience

National Gold Award,The 2024 ICPC China Kunming National Invitational Programming Contest

May 2024 - now

ICPC Foundation

- This competition can be said to be the starting point of my programming competitions.
- It gives me a lot of confidence and advantages in the fultrue.
- Not only did I further cultivate my innovative abilities, team spirit and collaboration skills, but I also developed the capacity to write programmes, analyse and solve problems under pressure.

Tags: C++, Code, Think, Create, Team

National Second Prize,The 16th Lan Qiao Cup C/C++ Programming Competition, University Group A

June 2025 - now

- The Blue Bridge Cup competition places greater emphasis on assessing fundamental coding skills, whilst its individual format allows for a more comprehensive demonstration of personal capabilities.
- Moreover, the post-event standardised assessment approach it employs places heightened demands on the one-off accuracy and rigour of the code.

National Third Prize,China College Computing Contest - Group Programming Ladder Tournament

April 2025 - now

Tags: C++, Code, Single-participate, Team

National Third Prize,CCF China Computer Application Technology Competition

August 2025 - now

Tags: C++, Code, Team

Piano Grade 10 Certificate ,China Musicians Association

August 2015 - now

The above CV information is for reference only. For specific CV details, please contact me directly.

- Note: An “amateur” Grade 10 piano certificate is merely the beginning of one's “performance” journey.
- This is my first national certificate; moreover, I began practising from kindergarten onwards.
- I performed a piano duet of Marche Militaire and the Carmen Overture in middle school and a solo of Clouds Chasing the Moon in high school, respectively.
